DETAILED ACTION

This office action is in response to the Request for Reconsideration of Petition received February 7, 2007 and the Patent Office's Decision regarding the petition mailed on May 21, 2007. As noted in the Decision of May 21, 2007 the papers filed February 7, 2007 included a Declaration signed by the previously nonsigning inventors in compliance with 37 CFR 1.63. The Petition under 37 CFR 1.183 was therefore dismissed as moot.

On May 31, 2007 the examiner called the Applicant's Representative, Mr. James Porcelli, to discuss the Petition and the Requirements set forth in the Final Rejection of May 8, 2006. During this conversation it was discovered that there was an error, as set forth below, in the original declaration. Because of this, the finality of the last office action is withdrawn.

The amendment of October 12, 2006 has been entered and all rejections and/or objections set forth below are made relative to this amendment.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

Reissue Applications

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The Reissue Declaration notes two errors to be corrected. The first is that method claims could have been included in the original application. This error is moot because of the restriction set forth in the office action. The method claims were withdrawn because of the restriction set forth in that action. The second error noted was that "claim 1 includes features of the fuel metering valve unnecessarily narrow the claim." By the amendment of December 7, 2005 the applicant has now amended the claims to include various features of the fuel metering valve. Therefore, it is unclear what specific error is being addressed by the current reissue application.

Claims 1-9, 15-18 and 41 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the Declaration is set forth in the discussion above in this Office action.

Art Unit: 3746

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-9, 15-18 and 41 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.

Conclusion

The applicant is reminded that this application contains claims which are non-elected as set forth in the restriction requirement of the first office action. These non-elected claims should be canceled.
